

Take Note 2.12 Read Me File

The topics included in this read me file are:

1. **Third Party Shells**
2. **Install Problems**
3. **Bugs, addenda, errata.**
4. **CompuServe**

1. Third Party Shells

You may not see a group created for Take Note if you are using a third party shell. Rebooting Windows should make the group appear.

2. Install Problems

1. The install program will not add shortcuts under Win 95. Use any of the myriad ways available to do this. We will be taking care of this upon the official release of Win 95.
2. If you have a problem installing Take Note or get error messages when you try to copy the files you may contact us by the following means.

Difficulty Running Take Note:

If you experience problems getting Take Note to run please make sure your resource level is above 45%.

3. Bugs, addenda, errata

2.11:

1. Install program breaks under Win 95 Beta. See 2. *Install Problems*.

2.12:

1. Install program now runs under Win 95 (doesn't install shortcuts).
2. Install program now uses internal Huffman expand/compress algorithm instead of 'lzexpand.dll' for greater compression ratios. It is no longer possible to manually install the program.
3. Buttons that would appear on the staff, piano and guitar while using certain small font video drivers no longer appear.

4. Menu help is now accurate.
5. You may now add notes to a pasted staff position.
6. You may now use Ctrl-C, Ctrl-X, and Ctrl-V along with Ctrl-Insert, Shift-Delete, and Shift-Insert for the copy, cut, and paste functions.
7. Print scores will now print out all scores.

4. CompuServe

Take Note Software and CompuServe

The MIDI D Vendors Forum offers Take Note users a way to contact Take Note Software directly online and communicate with other users of Take Note. It's also a great way to get support files, updates, utilities and the latest info on product releases .

CompuServe is much more...

The Take Note Software Section of the MIDI Vendor Forum is your window to the body of additional services available on CompuServe. Many services complement specific applications. Others add a new dimension to business endeavors. Still others cater to personal interests, from aviation to Zinfandel wines.

* **Invest Wisely.** Speed stock purchases and sales with convenient electronic brokerage services. View stock trends online, research investment possibilities, or transfer data from CompuServe for use in your favorite spreadsheet package.

* **Take a trip.** Compare airline schedules and fares on CompuServe. Find the least expensive flight or the best time to fly. Book your tickets online, or pass information on to your travel agent.

* **Do your homework.** Turn hours of research into minutes online, with hundreds of national and international databases representing diverse specializations. Avoid lengthy library searches by pulling up abstracts and full articles directly online.

* **Be informed.** Turn to CompuServe's online news services daily for news from the Associated Press' national and international wires, United Press International's national, international and regional wires, The Washington Post, Reuters, and other reputable sources. The Executive News Service scans these wires for articles on topics you select, then clips and saves them for reading at your leisure.

Don't pass this up.
