

WINDOCTOR - The Installations Detective

Thank you for testing WINDOCTOR.

To install WINDOCTOR:

- Start windows if not already done
- Insert the disk into floppy drive
- Execute the file 'A:SETUP.EXE' (or 'B:SETUP.EXE') using the program manager <FILE/EXECUTE> or the file manager
- Follow the instructions given by the installation program
- To start WINDOCTOR click on the WINDOCTOR symbol in the new program group
- Please read the file 'engread.wri' for further information

WINDOCTOR is coming up in German.

But it's very simple to switch to English: Just use the menu item <Einstellungen/Sprache> and select 'Englisch', then press <OK>.

The button <Speichern> may be used to make the change permanent.

Please notice:

WINDOCTOR is SHAREWARE

Please read the file |engreg.wri| after the installation to get more informations about the shareware-idea.
