Discover how easy it is to use Arts & Letters DRAW and then step up to *Arts & Letters EXPRESS (version 6.0)*. This award-winning program comes complete with over 15,000 Drag & Drop clip-art images, 1,000 fonts, powerful drawing and editing tools, greeting cards, calendars, templates, and dozens of other features.

In laboratory tests conducted by one of the largest and most influential computer magazines in Europe -- Mikrodatorn, *Arts & Letters* was ranked #1 in ease-of-use and performance vs. CorelDraw and Micrografx Designer. For example, in total time to print the same page, *Arts & Letters* was over *twice* as fast as CorelDraw 4.0 and 5.0.

Also included is a step-by-step multimedia tutorial on CD-ROM. Experienced artists and designers will show you how to create stunning graphics in minutes. And we'll include a Logo Collection and Design Guide with tips on designing you own logo, stationery and business cards.

For a complete list of features, click on the **EXPRESS Features** button above.

Editor's Choice - Ranked #1 in Performance and Ease of Use

Arts & Letters EXPRESS is the top of the Arts & Letters line. It includes over 15,000 Drag & Drop clip-art images organized in over 225 libraries. Among the 225 libraries are Aircraft, Cartoons, Computers, Fantasy, Flags, Holidays & Seasons, Landmarks/Historic Sites, Maps, Musical Instruments, Nature, People, Religion, Science Fiction, Signs, Space, Sports & Recreation, and Transportation. The Clip-Art Manager displays previews of each image and provides a keyword search feature.

Pushpins allow dialog boxes to be kept on-screen during editing sessions. Assign attributes by selecting from visual palettes of fills and line styles.

The Color Filters feature allows you to adjust the colors of all objects in a file -- or just a few -- without breaking apart the objects: convert to grayscale, replace hue, add/remove (mix) paint are just a few of the controls.

Extrude and Warp/Perspective allow you to simulate two-point perspective and three-dimensional effects automatically. Hole-cutting allows backgrounds to show through objects. Autotrace automatically transforms bitmaps (scanned images) into editable objects.

Additional advanced features include masking and polymorphic tweening. A dynamically updated Hint line displays options and identifies tools and commands. An on-line glossary and keyword search facility provide instant answers to any questions. Sophisticated editing tools, construction toolbox for precise drawing, line-to-curve conversion, and 4-color separations make *Arts & Letters EXPRESS* the equal of any graphic arts task.
