ERRATA #2   11 December 2000

Specific Instructions and Errata for
Nonresident Training Course

NEETS, MODULE 12, MODULATION PRINCIPLES
NAVEDTRA 172-12-00-83 (PRINTED COURSE) AND
NAVEDTRA 11100-A (CDROM COURSE)

1. This errata is issued to correct technical and typographical errors in the printed and CDROM versions of this nonresident training course.

2. For the printed course, make the following pen and ink changes to your course booklet, prior to starting the course:

Topic:	Change:
2	Page 2-11, paragraph 1, cut and paste the following paragraph:

The use of this math is to illustrate that the actual bandwidth of an fm transmitter (240 kHz) is greater than that suggested by its maximum deviation bandwidth (±75 or 150kHz). This is important to know when choosing operating frequencies or designing equipment.

3. For the CDROM course, when answering the questions in assignment 2, use the following information:

Question:	Change:
Question 2-19	Change the answers to read:

1. 5
2. 10
3. 15
4. 20

Question 2-20   Change the answers to read:

1. 480
2. 420
3. 340
4. 240
