

Supporting fieldwork using information technology

Wednesday 10 May 2006

Robbins Conference Centre
University of Plymouth

Experiential
Learning CETL
Centre for Excellence
in Teaching and Learning

A day of talks and demonstrations from leading practitioners

How should we harness innovative technologies in order to:

- Enhance students' preparedness for fieldwork
- Gain remote access to crucial information whilst in the field
- Record field phenomena in more sophisticated ways
- Challenge students in post-fieldwork assessments

Organised by the CETL in Experiential Learning in Natural and Environmental Sciences
and the GEES Subject Centre of the HE Academy

Geography,
Earth and
Environmental
Sciences (GEES)

Free Entry. Refreshments and lunch provided.
