

# The Bioscience Representatives Network – Beyond the Forum

## Our aspirations

- Forum - Three way process; you to us, us to you, you to you
- Reps Network (and wider Bioscience Network) – Key contacts within the bioscience community – at least a five way process; the above + you to your colleagues and your colleagues to you (and us), etc!

## Examples of the support we offer the Reps Network

- Reps Forum
- Reps Briefings, email update
- Publicity and mailings of literature & information for distribution
- Website – Reps names and contact information
- Email update
- Discussion list

## Over to you...

- **What aspirations have you?**
  - For the Reps Network
  - Beyond the Reps Network
- **Realistically, what might the Centre do to support these?**
- **Realistically, what might you do to support these (individually or collectively)?**
