

Questionnaire on proposal for ethics-related video collection

It was evident from a recent survey that the easy availability of resources to support the teaching of ethics to bioscience students would be appreciated. (Willmott, C.J, Bond, A.N, Bryant, J.A, Maw, S.J, Sears, H.S, Wilson, J.M (2004) Teaching Ethics to Bioscience Students – A survey of Undergraduate Provision. Bioscience Education E-journal, volume 3 available at <http://www.bioscience.heacademy.ac.uk/journal/vol3/Beej-3-9.htm>

This proposal is to make available via the Centre for Bioscience web site an archive of ethics-related video material. This would be done under the Educational Recording Agency licensing agreement which allows for the exchange between licensed establishments of pre-recorded materials for the five main terrestrial channels. There would probably be some minor cost to borrowing to cover expenses.

To assist in evaluating the need in this area we would appreciate it if you would take a few minutes to complete this questionnaire before returning it by email to Dr Andy Bond at bonda1@WESTMINSTER.AC.UK
