

Toby Maguire is a Spiderman's Peter. Having so many females demand him in desktop theme, I created this piece of new Quartz Experience. Enjoy!

This archive includes 4 files: readme and desktop pictures (JPEG) in three resolutions: **1280x1024** | **1024x768** | **800x600**.

A special effect is used for background. I pretty like it though. Long life PhotoShop! Maybe I will create a Spiderman theme, but not now... life is still hectic of jobs ^\_^
