How do I run a program at a designated time?

1. Click the <Add Task> button and a wizard will guide you through the steps.

2. Click "I want to run a program", then click <Next>

3. Follow the on screen instructions to set up a time to display your reminder.

4. At the "Program" window find the "Program" field.   Use the <Browse> button to locate the program file you wish to run.   If any command line parameters are required place them in the "Parameters" field.   Refer to the documentation of the program you are launching for these command line parameters.

If you want to play a sound when the program is run, use the <Browse> button to locate the sound file (WAV).

Click the <Next> button.

5. If you wish, type a description of this program task.   This will help you remember the task when you are viewing the list of tasks in the main window.

How do I display a reminder at a designated time?

1. Click the <Add Task> button and a wizard will guide you through the steps.

2. Click "I want to display a reminder", then click <Next>

3. Follow the on screen instructions to set up a time to display your reminder.

4. At the "Reminder Message" window find the "Enter your reminder message" field.   Type your reminder here.   If you want a sound to play when the reminder is displayed use the <Browse> button to locate the sound file (WAV).

Click the <Next> button.

5. If you wish, type a description of this reminder.   This will help you remember the task when you are viewing the list of tasks in the main window.

How to use EZ Scheduler

EZ Scheduler - A product of American Systems

EZ Scheduler uses a wizard to guide you through the process of creating a task or a reminder.   Each step comes with complete instructions on the window describing what to do.   Give it a try!
