

How do I put my photos into Photo Wizard?

1. Click the 'Get Photo' button at the top left.

If you have a scanner, digital camera, or other photo capture device you will see this window.

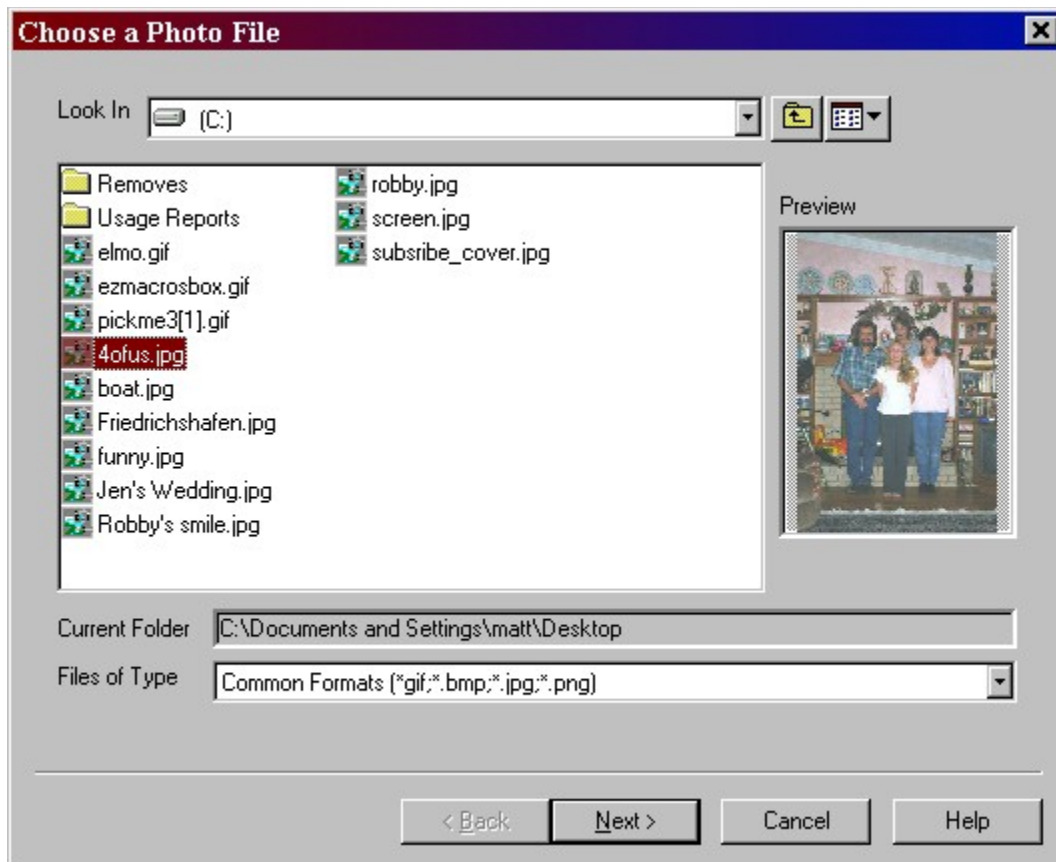

If you don't you'll go straight to step 1b.

1a. Decide if you want to get a photo from A) scanner or digital camera, or B) from a file on your PC. If you want to get a photo from your PC click 'Open a photo in an image file' and click <Next>. Go to step 1b.

If you want to get a photo from a scanner or digital camera click 'Open a photo with a scanner, digital camera or other image capturing device'. A list of all your cameras and scanners will appear in the list. Click on the one you want and decide if you want to use Quick Scan or not. Read the on screen instructions for Quick Scan.

Click <Next>. Proceed to step 2.

1b. If you choose to get a photo from a file on your PC you will see the window below.

Click on the photo file. You'll see the photo in the "Preview" window. You can click on the Preview window and see the full size photo.

When you have the file you want click <Next>.

2. To name the photo type what you want to call the photo.

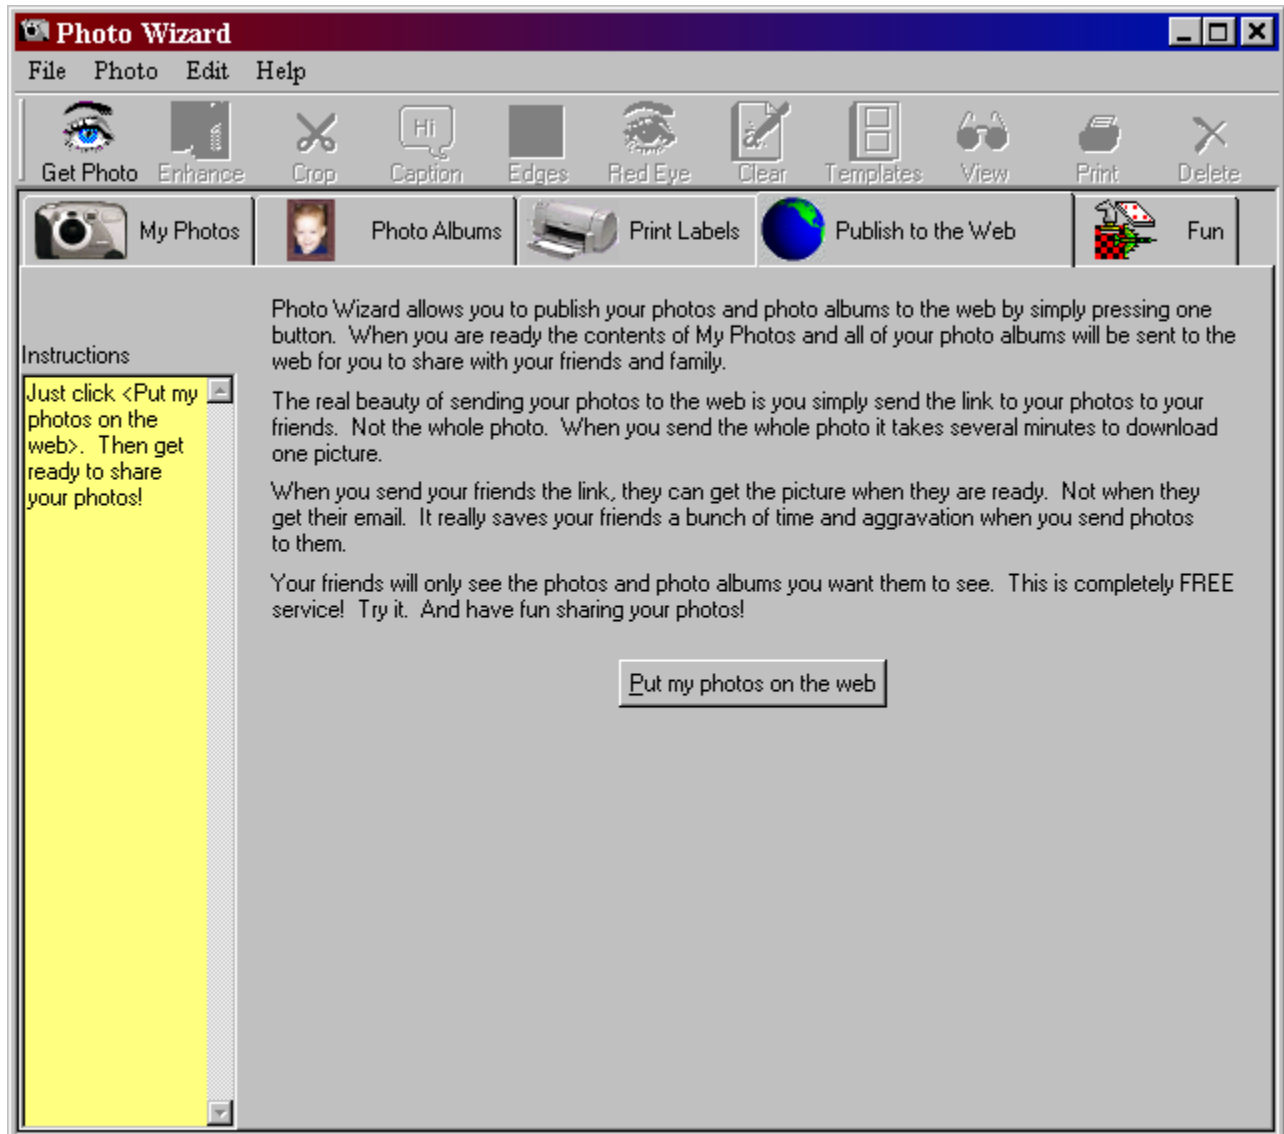

If this is the last photo you want to get click <Finish>.

If you would like to continue getting photos check the "Get another photo" box at the bottom and click <Next>

How do I put my photos on the web?

Very simple. Just click the "Publish to the web" tab and click the "Put my photos on the web" button. You will receive a very large block of web space for free. You will be allowed to purchase more later if you so desire. All we ask is that you fill out the information that you are asked the first time you click this button. Once you do this, you will never see these windows again.

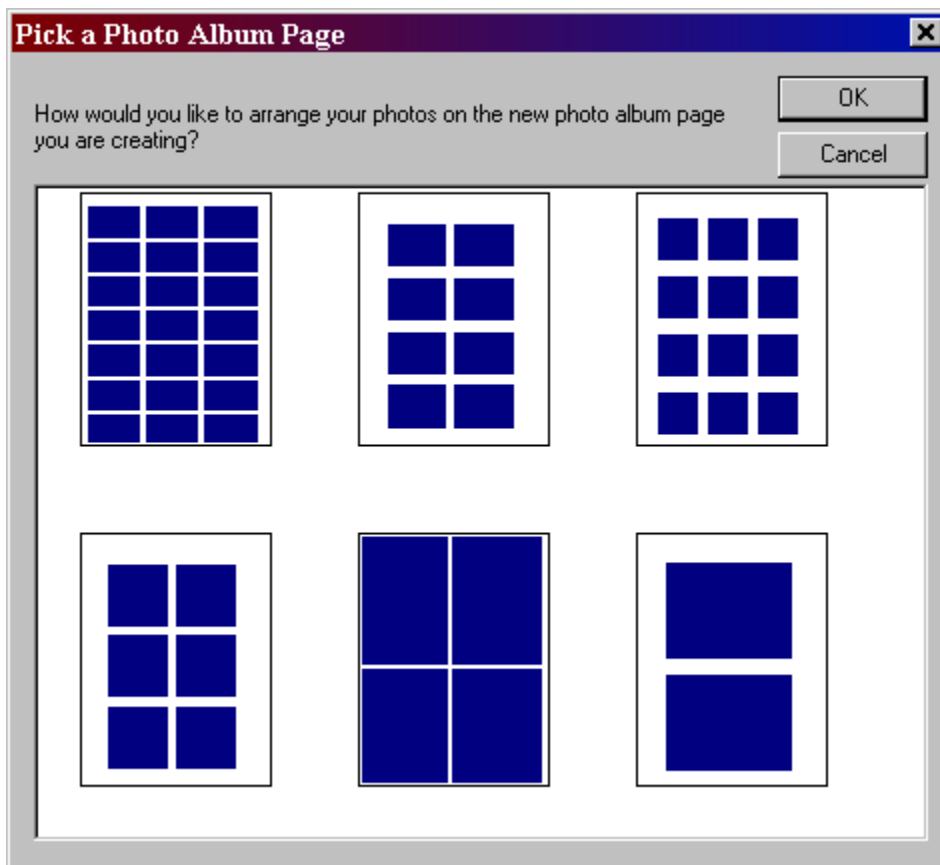

How do I create photo albums?

If you have never created a photo album before, click the "Create Photo Album" button. Then type the name of the album you are making. Something like "My Family" or "Summer Vacation Year 2000" would be great.

Click the 'Pick a Photo' button above to pick a photo from the 'My Photos' folder and place it on an empty blank space. You can also double-click, hit the space bar, or hit the Enter key, on the blank space to put a photo into.

You can add as many pages as you wish to your album. With quite a few different configurations.

After you "[Put your photos on the web](#)" you can send email links to your photos and photo albums to your friends and family. **This is a very useful feature** of Photo Wizard and www.photocountry.com. By emailing links **you save the people you are sending photos to a lot of time**. They don't have to spend a lot of time downloading photos in their email program. They can just click your link and see your photo instantly. **Your friends and family will thank you!**

Just click the "Email this Album" button and the link is automatically generated for you. Just type your friend's email address and go. Photo Wizard even has an address book that you can store all your friends and family's email addresses in.

How do I crop the photo to the size I want?

First click the photo you want to crop then click the <Crop> button at the top. You will see this window.

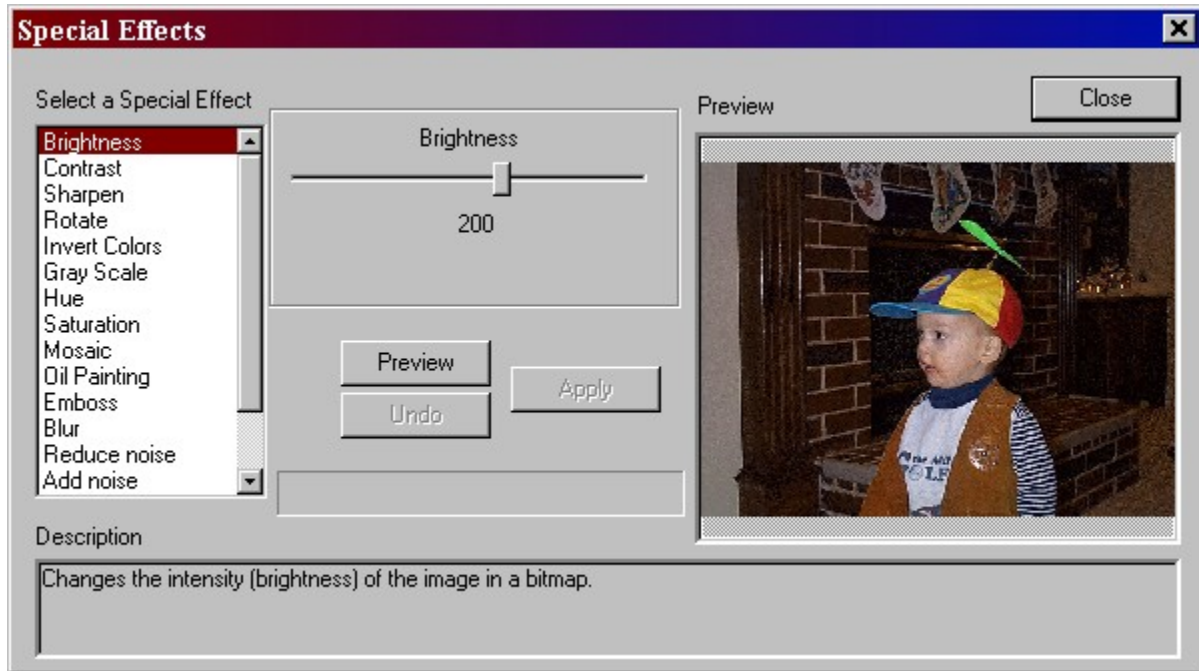

Choose the shape of the crop you want at the left.

Then use the taller/shorter arrows and the thinner/wider arrows to mold the shape of the crop to be the way you want it.

When you are happy with where the crop will occur click <Ok>.

How do I adjust the brightness and contrast of my photo?

First click the photo you want to adjust then click the <Enhance> button at the top. You will see this window.

Choose Brightness or Contrast. Move the slider back and forth to determine how bright to make the photo. Then click <Preview>. You will see the photo on the right reflect your change. You can keep adjusting and clicking <Preview> as long as you like. If you don't like a change click <Undo>

Once you are finished click <Apply> and your change will be permanent.

Then click <Close>.

How do I enhance my photos?

First click the photo you want to enhance then click the <Enhance> button at the top. You will see this window.

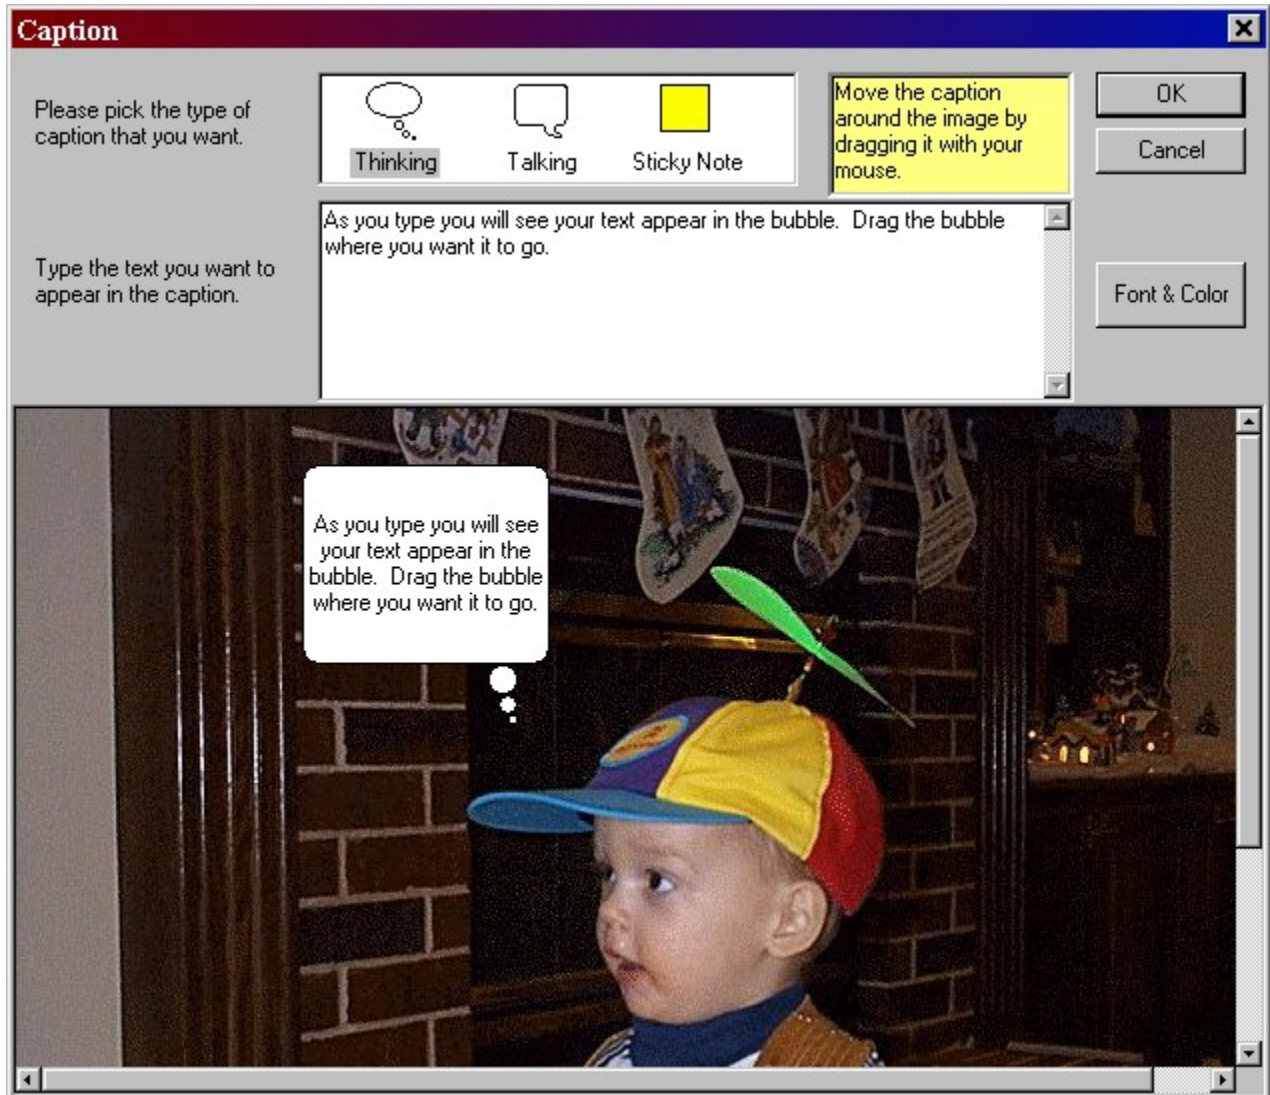

Choose the effect you want to apply or play with. Move the slider back and forth to determine how much to manipulate the photo. Then click <Preview>. You will see the photo on the right reflect your change. You can keep adjusting and clicking <Preview> as long as you like. If you don't like a change click <Undo>

Once you are finished click <Apply> and your change will be permanent.

Then click <Close>.

How do I add a caption or message to my photo?

First click the photo you want to add a caption to then click the <Caption> button at the top. You will see this window.

As you type you will see your text appear in the bubble. Drag the bubble where you want it to go.

You can also change the font and text color by clicking the button.

How do I correct a "Red Eye" in my photo?

First click the photo you want to correct the red eye on then click the <Red Eye> button at the top. You will see this window.

With the mouse draw a circle around the red eye. You will see the highlighted area that you intend to correct. If you don't like it, just draw it again. The original circle will disappear.

After you draw the circle around the red eye click the <Correct Red Eye> button. Then click <Ok>

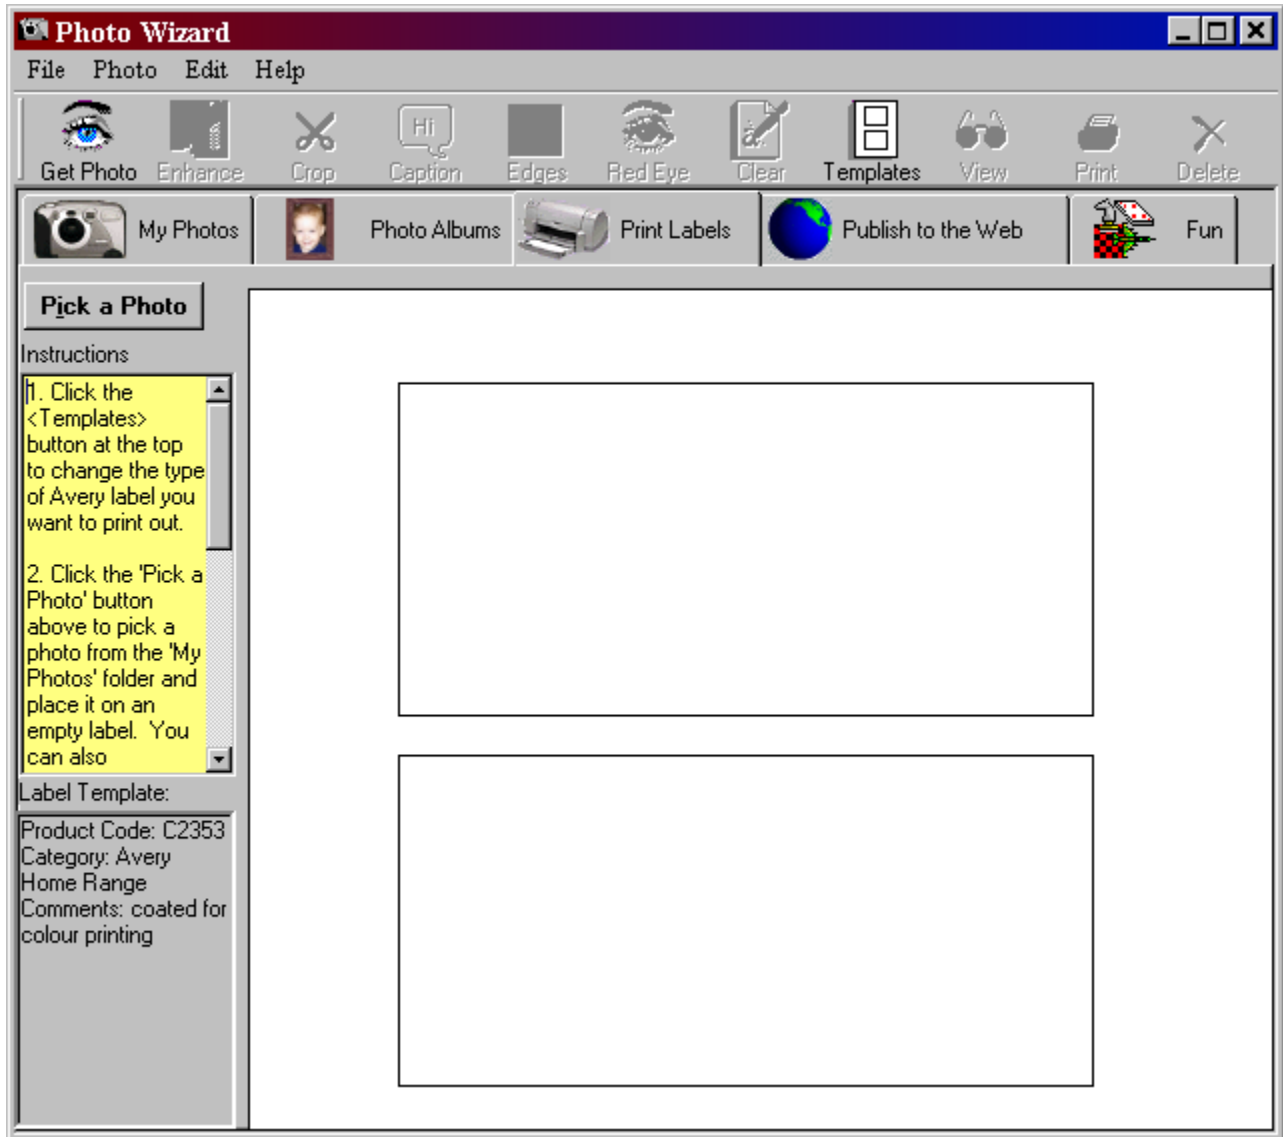

How do I print my photos?

First click the photo you want to print. Then click the <Print> button at the top.

If you want to print your photo's on Avery labels see the section on "How do I print photos on Avery Labels?".

How do I print photos on Avery Labels?

Click the "Print Labels" tab. You will see this window.

You can choose the type of Avery labels to print on by clicking the "Templates" button at the top. You will see this window.

Note: You are not required to print on labels, but you can. You can select any configuration you want and print on regular paper.

Next just click the 'Pick a Photo' button above to pick a photo from the 'My Photos' folder and place it on an empty blank space. You can also double-click, hit the space bar, or hit the Enter key, on the blank space to put a photo into.

Once you have a photo on a label you can drag it anywhere you like.

When you have your label sheet the way you like it, click "Print" at the top.

How do I email photos to my friends and family?

After you "[Put your photos on the web](#)" you can send email links to your photos and photo albums to your friends and family. **This is a very useful feature** of Photo Wizard and www.photocountry.com. By emailing links **you save the people you are sending photos to a lot of time**. They don't have to spend a lot of time downloading photos in their email program. They can just click your link and see your photo instantly. **Your friends and family will thank you!**

In the "My Photos" tab click the photo you want to email then click the "Photo" menu then click "Email this Photo".

If you have never emailed a photo to anyone you will be asked for your email address and your email server. Refer to your "Accounts" section of your email program to get the name of the email server you send mail through. (Once you do this you will never see this window again.)

You will then see this window.

Email this photo to your friends and family.

Your Friends Email Address

Your Email Address

Your message Subject

Click on the link below to see the photo.

<http://www.photocountry.com/viewphoto.asp?Userld=10&Photo=Ladies%20Magazine>

Type your friend's email address in the "Your Friends email address" field and click send. Use the address book if you wish to save his or her email address so you can use it again.

Please note that you must have already put your photos on the web for this to work well.

How do I email photo albums to my friends and family?

After you "[Put your photos on the web](#)" you can send email links to your photos and photo albums to your friends and family. **This is a very useful feature** of Photo Wizard and www.photocountry.com. By emailing links **you save the people you are sending photos to a lot of time**. They don't have to spend a lot of time downloading photos in their email program. They can just click your link and see your photo instantly. **Your friends and family will thank you!**

Just click the "Email this Album" button in the "Photo Albums" tab and the link is automatically generated for you. Just type your friend's email address and go. Photo Wizard even has an address book that you can store all your friends and family's email addresses in.

If you have never emailed a photo to anyone you will be asked for your email address and your email server. Refer to your "Accounts" section of your email program to get the name of the email server you send mail through. (Once you do this you will never see this window again.)

You will then see this window.

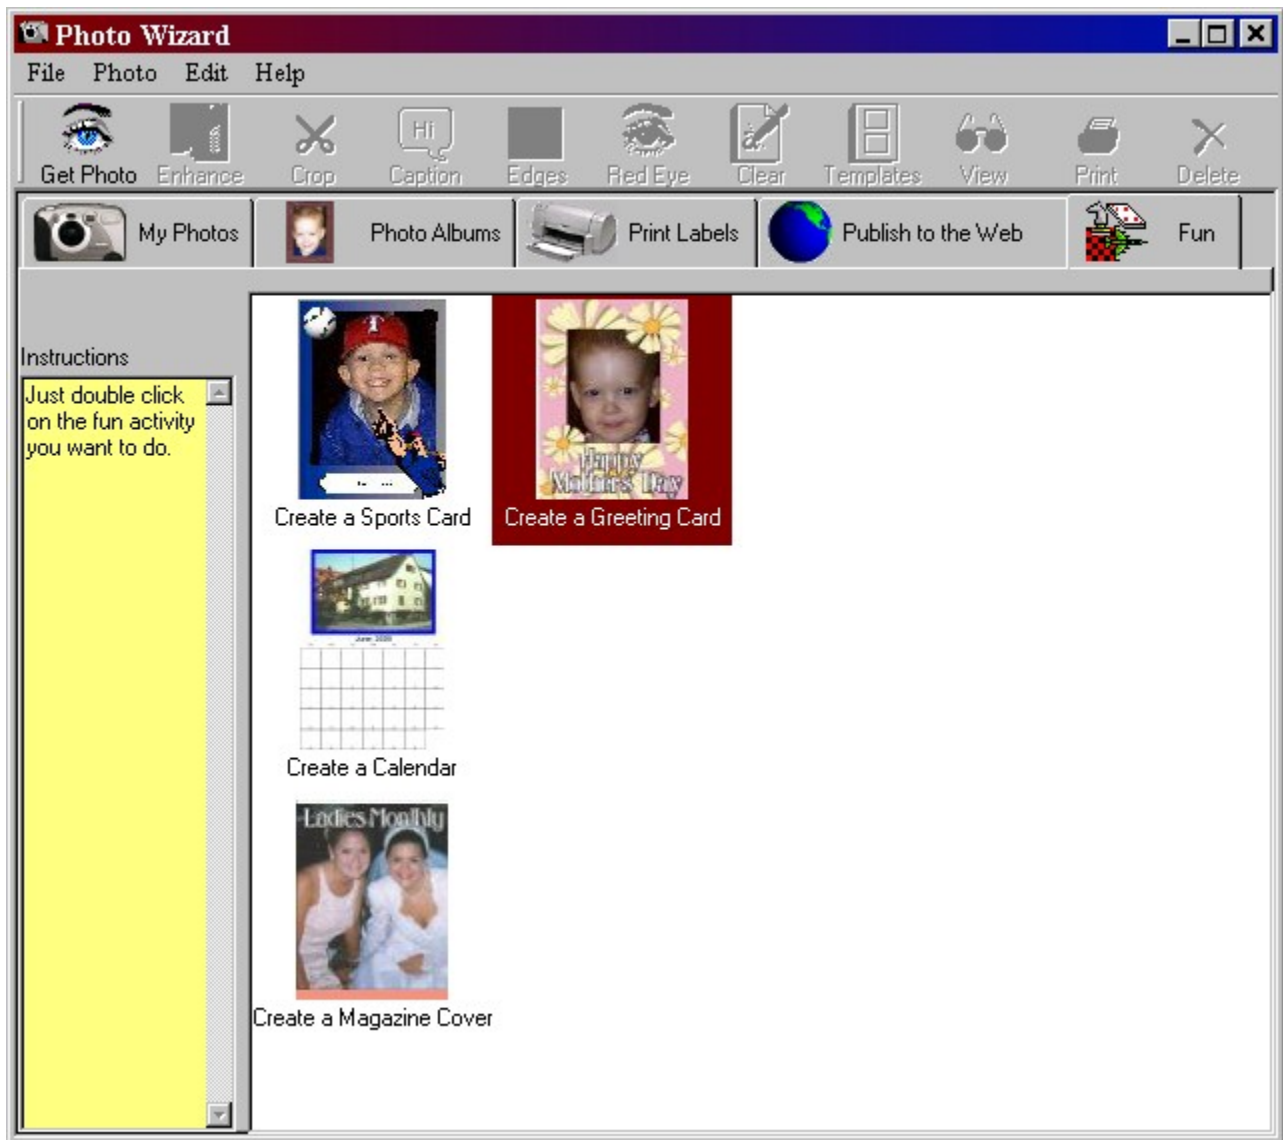

The screenshot shows a dialog box titled "Email" with a close button (X) in the top right corner. The main text reads "Email this photo album to your friends and". To the right of this text are two buttons: "Address Book" and "Send". Below the main text are three input fields: "Your Friends Email Address" containing "heremail@herisp.com", "Your Email Address" containing "myemail@mycompany.com", and "Subject" containing "Here's some new photos!". To the right of the "Your Friends Email Address" field is a "Cancel" button. Below the input fields is a larger text area containing the message "Click on the link below to see the photo album." followed by a blue hyperlink: <http://www.photocountry.com/viewalbum.asp?UserId=10&AlbumId=17&PageNum=1>.

Type your friend's email address in the "Your Friends email address" field and click send. Use the address book if you wish to save his or her email address so you can use it again.

Please note that you must have already put your photos on the web for this to work well.

Photo Wizard - A product of American Systems and www.photocountry.com.

Photo Wizard - Your Passport To PhotoCountry

Photo Wizard turns your photos into fun! You can import pictures from digital cameras, scanners, and other digital sources. Bring your photos into the program, and the fun begins! It lets you manipulate your photos in a variety of ways. You can retouch your photos, or add special effects. Crop and size your pictures to get them just right. Enhance the colors, the brightness, remove "red eye", and more. Even add a customizable frame.

When you have your pictures just the way you want them, you can print them on a variety of paper, label, and photo paper sizes. You can arrange your photos into albums, and put your photos, and albums, on the World Wide Web -- sending them here to PhotoCountry.

Once your photos or albums are safe in PhotoCountry, you can email links to your photos to family, friends, and associates. They never have to download a file. And, they only see the pictures you want them to see -- your pictures are safe and secure. And you do it all right from within the program.

For even more fun, you can insert your pictures into sports cards, magazine covers, calendars, and greeting cards that are included in the package. Add your own captions and text to give a real personal touch to your pictures. Photo Wizard is a complete package for working with all your photos and having fun with them in the process.
