CS-322 Checklist

Bookmark the course webpage / syllabus

    www.cs.pdx.edu/~harry/compilers/syllabus.html

Handouts from first class meeting:
    0. This Checklist
    1. Syllabus
    2. Paul – Chapter 2 (35 pages, not online)
    3. SPARC Demo Programs
    4. SPARC Instruction formats (1 page, not online)
    5. ASCII Byte Encoding (2 pages, not online)

Print the following, which can be accessed from the course webpage:

    6. Project 7 Assignment
    7. Homework #1
    8. Coding Style For Java Programs (8 pages)
    9. Overview of SPARC Architecture
    10. PCAT Reference Manual

Read the following immediately:

    1. Syllabus
    6. Project 7 Assignment
    7. Homework #1
    8. Coding Style For Java Programs (8 pages)
    9. Overview of SPARC Architecture

You may also be interested in reading the following (not required):

    My Java Summary
    2. Paul – Chapter 2 (35 pages, not online)

You may also want to print the lecture notes. I recommend not printing them until you are ready to use them, since I will make changes from time to time. They are accessible through the webpage.
