When we started Expository Files, a little over a year ago, we had no vision of what has happened. We thought a handful of preachers and a few others would take an interest, maybe 20 or 30 readers a month. Now, a few days after we upload into America Online and CompuServe, we have a hundred plus downloads, and this doesn't account for the downloads from our Internet location. It appears this is a new medium that can be used effectively to spread the Word of God; as we will emphasize in a series of classes on the campus of Florida College in February: SPREADING THE WORD OF GOD THROUGH CYBERSPACE.

Thanks to all those who have helped us with suggestions, articles, comments and technical advice. Thanks especially to Mark Copeland, a pioneer in the use of this medium.

Now in 1995 ...

## A NEW FEATURE: What The Bible Says!

Beginning with this issue, we are starting a TOPICAL PAGE, where some topic will be presented from the Scriptures. The first one is, WHAT THE BIBLE SAYS ABOUT GOD, by Michael Schmidt. We are not going to minimize or abandon our expository emphasis. But we feel we shouldn't be limited to that approach. So look for these articles in 1995 ...

WHAT THE BIBLE SAYS ABOUT  
GOD  
CHRIST  
SIN  
BEING SAVED  
FAITH  
REPENTANCE  
BAPTISM  
THE DEATH OF CHRIST  
THE CHURCH

BEING A CHRISTIAN  
WORSHIP  
MARRIAGE

Thanks for the download! We'll see some of you at the 1995 Florida College Lectures, Feb. 6-9, in Tampa. Our "bound volume" (3.5 disk with all of 1994, plus extras) will be on sale in the Audio-Visual Room on campus, for \$10.00, and we are making arrangements to display the MAC version of EF in our space there. If you are not able to attend the lectures, and you want a copy of the "bound volume," send \$10.00 (plus .83 cents tax if ordering from Texas) to:
