SwingCad V1.0 Software Package

Do you currently have:

       * A fast Multimedia   PC Computer (Pref. Pentium 120+)
       * Video Capture Card (Pref. 320x240@30FPS)
       * Camcorder (Pref at least 250 Shutter Speed) w\RCA out
       * Windows 95

All you need is the SwingCad Software Package!

      When you order Package #1 over the phone we will give you an access code that will instantly turn your Demo Version of SwingCad into the full working version.   We will then ship the program on CDROM with various Pro and Ameteur swings to get your "Model" video collection started. You will also receive the Asymetrix Digital Video Producer LE software package which will further enhance   the usage of your video capture card and provide you with a better capture tool then the one that is currently installed with SwingCad.

      Your SwingCad Software Package has Lifetime Tech Support and free upgrades for 1 year after purchase.
