

# Print

The PRINT Button brings up a screen showing you what is about to be printed. This consists of the golfer in screen 1 and any Cad drawings you might have on the golfer with the exception of the freehand drawings. Also whatever is in the notes box will be printed .

Note: Printing can only be done in Double Screen Mode.

1. Select Double Screen Mode. 
2. Open golfer 1 and select a golfer. 
3. Insert any drawing(s) you wish to be printed.(except freehand drawings)
4. Push the notes button and insert any notes that you want to print.
5. Push the PRINT button.
6. What you see is what will be printed. If it's not what you want then select CANCEL. Otherwise select OK.
