In this tutorial, you can observe how easy it is to customize the program to your specific application.	0
Earlier, you saw 3 records for a truck maintenance system, but the headings for each record did not really describe the 3 fields identified in each record: License Number, Vehicle ID Number, and Vendor & Model Number.	0
We will now alter the default headings.	0

 This is the 'Custom Options' menu. This menu allows you to customize 0  
 the program to your needs. As you become more conversant with it, 0  
 you can come back and experiment with this screen. To understand 0  
 how each option works, you could read the Help screen later . For now, 0  
 however, we want to change some default values. To do this, enter '2'. 0
