Welcome to Chapter 9!	0
In this tutorial, we'll create 2 basic reports.	0
The first will give an overview of what is in the Master File.	0
The second will show all activities for the trucks.	0

----- Maintenance and Service Call Activity Tracking System -----

03/14/87		Please Choose One		06:03:53	
----------	--	-------------------	--	----------	--

Main Program Menu

- 1) Master file
- 2) Other Options
- 3) Select Category
- 4) Output data
- 5) Consolidation
- 6) Your Help screen
- X) Exit System

Category of Maintenance: ALL

@27	27
1	0
Select option '1'.	0

Dallas Truck Maintenance Tracking System

```

€-----
Master File Menu and Other Primary Functions
-----
A to ADD data--Master file
G to GET/EDIT data--Master file
1 for Activity file.
2 for Search through Service Call data
3 for Billings reports.
4 for Appointments
5 for Service Call and Activity reports
6 for automatically creating future Activities.

```

	H for Help.			0
				0
	R to RETURN to prior menu.			0
				0
E=====				0

Category of Maintenance (defaults to ALL): ALL

@27 27

5 0

Option 5 contains the 2 primary reports that show what is in

your two main files: Master File and Activity File.

Enter a '5'.

 Here is screen 1 of this report. It shows that truck 'NBF199' has 4 activities. Each activity is displayed with the comment from the Activity file, as you had originally entered it at the time the activity was created. 0
 You can have a different comment for each activity, up to 200 characters. 0
 Each record in the Master File can have only one comment, to 120 characters. 0
 In Chapter 10, we will search for words that you had entered into the comments, irrespective of where those words occurred. 0
 - 0
 This report contains 2 pages but requires 4 screens to display it. 0
 Rather than continue 'scrolling' through the report with 'PgDn', let's enter Escape to return to the prior menu. 0

Dallas Truck Maintenance Tracking System

Start Date Service Call and Activity Reports End Date

01/01/1901 | Please Choose one | 12/12/2999 |

- 1) Do report from the Master File
- 2) Generate one report from the Activity file
- 3) Set start/stop date of these Reports
