

## THE JAPANESE KANAS PACK

With these exclusive fonts comes a special keyboard handler (Mac or Windows) that will let you switch in a snap between regular English Roman characters, and phonetic entry in Katakana or Hiragana, as easy as a i u e o, ka ki ku ke ko, ha hi fu he ho, etc. Type in Romanji, get automatically the Kanas. Great if you need to do business with Japan, or Japanese-speaking individuals.

Two fonts : **Hira & Katakana** resembles Times, **HiraKata HV** resembles Helvetica (Geneva).

e are currently working on a yet more ambitious project : a combination of software fonts and programs which will give you access to Kanji, pretty much in the same way. This pack will be available at a very affordable price, like most of our programs and fonts, around summer-fall 95. Please contact us for more informations.
