IMPORTANT NOTICE

Images on this CD are provided in a ONE-FILE FORMAT. This means the file can be used on either Macintosh or PC computers.

Previews

The files are clip pathed (except for color photography with backgrounds). However, the clip path will NOT show in the preview on the Macintosh or PC platform. Instead the art will have a white box behind in the preview. However, the files will print with a clip path.

The preview is an 8 bit tiff preview.

File / Folder Names

File names follow the standard KAAS naming system but folder names are limited to 8 characters. File names have the .eps extention but are still readable on the Macintosh platform.
