**League City, TX 77573**

Thanks for downloading this package. Please note the change of address above, I've moved since releasing these programs!

---

### **Archive Contents**

You should have four files included in this archive:

BOMBSQD.EXE  
BANKSHOT.EXE  
FOLLOWME.EXE  
README.WRI (this file)

The Visual Basic runtime library VBRUN300.DLL is required to run these programs. This file is available from various online services. I didn't include it to reduce archive size.
