

RABBIT 1.0

This is a program that I just created in a Afternoon. The Executable file is Rabbit.Exe . Other than tthis file that should be the only file in the archive. Also needed but not included is "VBRUN300.DLL". It can be gotten almos anywhere that Shareware is distibuted. A sound card is recemended. This program runs only under windows 3.0+.

Rabbit 1.0 is FreeWare feel free to give copys to your friends and enemies. Although I would like feedback for my efforts. if you Like Rabbit (or if you don't). (e-)Mail me, my address is Treker L@Aol.Com.

And, As always, the Author of this program makes no claims At all, And takes no responsibilty for system problems, Data loss and any thing else. (Although any of thouse would be unlikely). In other words : USE AT OWN RISK
