

Home Repair

Encyclopedia

To install:

- Choose Run from the Program Manager File menu.
- Type d:setup. (If your CD-ROM drive is not labeled "d," please use the appropriate drive letter.)

Home Repair will then create a BTW directory and a Repairs subdirectory on your hard drive, where it will install files needed to run this program. To install the application, you'll need 2 MB of free space on your hard drive. When you install, Home Repair will also create a Books That Work program group in your Program Manager, and will place the Home Repair icon into this group.

To run this application:

- Double-click the Home Repair icon in your Program Manager.
- If this icon is hidden, select Books That Work from the Windows menu in your Program Manager. This will bring forward the program group containing the Home Repairs icon.

If you try to run this application without the CD in your drive:

- A dialog box will appear, informing you that your computer can't read from the CD-ROM drive.
- Insert the Home Repair CD.
- Wait 3 seconds.
- Select "Retry" from the dialog box.

TROUBLESHOOTING

Close *Home Repair* before running the *Books That Work Sampler*

- Running the two programs at the same time may cause some machines to freeze at the conclusion of the Sampler.

Requires:

- 100% IBM®-compatible PC
- 2 MB RAM minimum
- Microsoft® Windows 3.1™
- VGA
- CD-ROM drive
- Hard disk drive
