Firebowl

The consistently excellent *Elle Decoration* Magazine created one of the most inspirational settings we've seen for our iconic Firebowl.

Alex Teal's brief was to turn a dark dining lounge into a **light, modern, peaceful** retreat with sleek lines and a touch of delicate femininity.

We **absolutely love** the result!

The original (and much imitated) Firebowl was awarded a Prince Of Wales Medal for design and has been exhibited at the V&A Museum. This iconic gas fire is shown here in white concrete with a bespoke enclosure.

A range of standard enclosures and Firebowls are also available. Ask your CVO Approved Supplier for details.

The 'Celebrity' of fires, this
award winning bowl has appeared on TV
and in countless books and magazines. It
has graced a Chill Out Album
COVER and even appeared in a Robbie
Williams video!
