Counting Menu

Theory   This item displays an introduction into the fundamentals of card counting.

Practice A complete, step-by-step guide to becoming a better Black Jack player by using this program

Minus-Plus   This item will bring up a window showing the current count, and a reminder of the point count system.

Bust Stats   This item shows the number of aces and tens that remain, and a 'non-counting' statistic estimating the chances of each player going bust.

Complete Count   This item displays a window showing the number of each card that has been dealt, the current card count, and the EXACT probability the next card will bust the player.

Full Table   This item displays what to do in EVERY possible situation. The other items below it contain the same information, grouped to facilitate memorization.
