Enable/Disable Cheating Wouldn't it be great to be able to see through the backs of the cards! Turn cheating on to do so (but your scores won't count.) NOTE : You can only disable cheating from within the wager betting loop. Once you decide to cheat, you must do so for at least one hand. Once you return to normal play by disabling the cheat option, your money and score will be reset to their last 'non-cheating' settings.
