The options menu contains many useful and friendly features.

• "Clear Statistics" resets all the game statistics to zero.

• "Shuffle Sound" and "Drag Card Sound" turn on and off

their respective sounds (useful for politically correct

game-play)

• "Solid Reds" and "Use Color Face Cards" are options that

make the game look nicer on color machines.

• "Left Handed" and "Right Handed" change how the hand

pointer appears during game-play.
