

This CD, the programs, information, and various web pages on it were brought to you by the following companies:

Microsoft Corporation
Multimedia Labs
MicroMedia Publishers

Sun Microsystems
Idea Cafe
Instant Web
Info Street

Internet Explorer v3.x will be installed on systems using Windows 95 or newer. Version 2.1 will be installed on systems using Windows v3.1x. The set-up program will automatically determine which version of the Windows environment you are using and act accordingly.

NOTE: to Un-Install Internet Explorer, under Windows 95 or greater, simply go to the Start menu (on the tool bar, generally at the bottom of the screen) ... highlight Settings... highlight and select Control Panel... find Add/Remove Programs... select Internet Explorer v3.x... then click Remove and follow the prompts.

Thank you for purchasing this disc and enjoy.
