

Introducing Message Decoder 3.0

Message Decoder 3.0 was designed to give you the ability to decode any message you receive in oral or written form by finding "hidden messages" via Numerological and Astrological calculations as well as the Egyptian Book of Dead and Cabala.

Have you ever wondered if there is a deeper meaning to a particular conversation or letter or e-mail? Well, now you can decode it all.

Numerology has been used for centuries to decode "hidden messages". Now, the power of that knowledge is finally at your fingertips.

Who Should Use Message Decoder 3.0

Message Decoder 3.0 should be used by anyone and everyone who has an open mind and who is curious about the ancient art of decoding "hidden messages".

Message Decoder 3.0 Options

DECODE	decode "hidden messages" via Numerological calculations
COPY	copy text from Message Decoder to any other application
PASTE	paste text from any other application to Message Decoder
HELP	help information
EXIT	will end the program and save all your data

Using Message Decoder 3.0

Enter first and last names for both individuals. Under Personal Info enter personal data about the individual who received the message. Under Message From enter first and last name of the individual who is the author of the message. Select date when the message was delivered or if you don't remember the exact date just leave the current date. Select a message clue from the drop down list box. In Message Info section check all additional data about the message such as: Letter, Personal, Business, Friend, Foe or Coworker that apply.

After you have entered the required information click on the DECODE button. Your reading will be clearly displayed.

Please note that any date can be selected. You can check your past, present or future!

Registration and Pricing

Message Decoder 3.0 is free for registered users of Numerology Readers (Numerology Star Reader & Companion Reader).
