

Graphic Workshop PROFESSIONAL

OTHER ALCHEMY MINDWORKS SHAREWARE

Alchemy Mindworks offers several shareware applications in addition to the one you just installed. We invite you to visit our web page at <http://www.mindworkshop.com> to download them and try them out. You can order an evaluation CD-ROM which includes shareware copies of all our applications, except as noted, for \$10.00. Please see the Order Form for more information.

Graphic Workshop™ Professional*

Graphic Workshop Professional is *the* image management package for Windows 95/NT. It features multiple browser windows, batch processing, drag and drop, thumbnails, Pentium-optimized functionality and a lot more. It converts, prints, views, dithers, transforms, captions, flips, rotates, scales, crops, colour-adjusts, scans, quantizes, catalogs and wreaks special effects on ART, AVI, BGA, BMP, CAM, CDR bitmaps and previews, CPT, CUT, DCX, DLL, EXE, FIF, FITS, FLC, FLI, FPX FlashPix, GEM/Ventura GIF, HRZ, ICO, IFF, IMG, JPEG, KDC, KQC, LBM, MacPaint, MIDI (play only), MOV view only, MPEG view only, MSP, PCX, PIC, PNG, PSD, RAS, RGB, RGB, RLE, SCR, SFW, SGI, Targa, TIFF, TXT,VBX, WAV (play only), WMF, WPG and XBM picture files. Graphic Workshop Professional requires a Pentium or better processor. A display adapter and Windows screen driver capable of displaying more than 256 colours are recommended. Graphic Workshop Professional costs \$40.00 (US) plus \$5.00 shipping.

Graphic Workshop™ for Windows Graphic Workshop™ for Windows 95/NT

Graphic Workshop for Windows is the ultimate image management package. It converts, prints, views, dithers, transforms, flips, rotates, scales, crops, colour adjusts, scans, quantizes, catalogs and wreaks special effects on ART, AVI, BGA, BMP, CAM, CDR bitmaps and previews, CGM‡, CLP‡, CPT, CUT, DCX, DLL, EXE, FIF, FITS, FLC, FLI, FPX FlashPix, GEM/Ventura GIF, HPGL‡, HRZ, ICO, IFF, IMG, JPEG, KDC, LBM, MacPaint, MOV view only, MPEG view only, MSP, PCX, PNG, PSD, RAS, RGB, RGB, RLE, SFW†, SGI, Targa, TIFF, TXT,VBX, WMF, WPG and XBM. Graphic Workshop for Windows will display and

print on any card and printer respectively that can be driven by Windows. It features batch processing, an intuitive user interface and easy to follow menus. Includes several unicorns. Graphic Workshop for Windows costs \$40.00 (US) plus \$5.00 shipping.

GIF Construction™ Set for Windows

GIF Construction Set for Windows is an application to create, edit and display animated, transparent and interlaced GIF files for your web page. It features an Animation Wizard to help you create successful animations moments after installing the software. GIF Construction Set can also generate complex animated text banners, animated transitions, animated LED signs, GIF files that support more than 256 colours†, GIF files converted from AVI movies and much more. GIF Construction Set for Windows costs \$20.00 (US) plus \$5.00 shipping.

Pagan Daybook™ II for Windows

Something of a sequel to the original Pagan Daybook, Pagan Daybook II is a Windows calendar which will help you keep track of the festivals and observances of the pagan calendar. It can be configured as both a stand-alone application to greet you when your computer wakes up each morning and as a Windows screen saver. Pagan Daybook II features a greatly expanded database of observances, full colour graphics, sound, animation and various bits of magick. Pagan Daybook II is bookware – the cost of registration is to buy and read Steven William Rimmer's novel Coven.

Font Wrangler™*

The TrueType font manager that should have come with Windows, Font Wrangler will let you keep track of hundreds of fonts. It will batch install, remove, copy, rename and print fonts. Its font "contact sheet" function is superb for remembering what all those typefaces look like. Font Wrangler is bookware – the cost of registration is to buy and read Steven William Rimmer's novel Eye of the Dawn.

GIF Saver™ for Windows

GIF Saver for Windows is a Windows screen saver. It will allow you to integrate your own animated graphics into the software. When GIF Saver for Windows blanks your screen, it will display the animation you've selected. Multiple animated GIF files can be used to create complex animations. By the time your attention span changes, so will the picture. GIF Saver for Windows is bookware – the cost of registration is to buy and read Steven William Rimmer's novel Coven.

GraphSaver™ for Windows

GraphSaver for Windows is a Windows screen saver. It will allow you to integrate your own graphics into the software. When GraphSaver for Windows blanks your screen, it will display the images you've selected. It will also allow you to select one of a library of animated special effects transitions for each image, and to add sound effects to your pictures. The images used by GraphSaver for Windows can be stored as GIF, BMP, JPEG, PNG and PCX files. GraphSaver for Windows bookware – the cost of registration is to buy and read Steven William Rimmer's novel Wyccad.

Pagan Daybook™ for Windows

Pagan Daybook™ for Windows 95

This is a small Windows application which will help you keep track of the pagan calendar. Never again be at a loss to know when the summer solstice occurs, or when to celebrate the festival of Fortunalia. It's considerably more interesting than a calendar that tells you when the bank holidays and long weekends fall. The Pagan Daybook is bookware – the cost of registration is to buy and read Steven William Rimmer's novel The Order.

Pagan Daybook™ for DOS

This is a DOS text-mode implementation of the Pagan Daybook for Windows. Bookware.

Pagan Daybook™ for Macintosh

The Macintosh version of Pagan Daybook has the same features as the Windows version. Bookware.

Pagan Daybook™ Screen Saver for Windows

This is a screen saver which will blank your screen and display the Pagan Daybook, described above, after a period of inactivity. The Pagan Daybook Screen Saver is bookware – the cost of registration is to buy and read Steven William Rimmer's novel Wyccad.

QuickShow™ Light for Windows

QuickShow for Windows is a powerful, easy to use Windows multimedia slide show. It will display graphics in most popular image file formats. It supports special effects in WAV, MIDI and AVI files. QuickShow is fast, easy to use and can create slide shows which are as simple or as complex as you want them. QuickShow bookware – the cost of registration is to buy and read Steven William Rimmer's novel The Order.

GrafCat™ for Windows

GrafCat for Windows is an application to print paper catalogs of graphic files. It will print some or all of the images in a directory with anywhere from six to forty-eight images to a page in high resolution thumbnails. It will drive any printer that Windows has drivers for in two-colour dithered monochrome, 256-level grey scale and 24-bit true colour. GrafCat's output is a very convenient way to keep track of lots of images, handle proof pages for book manuscripts and deal with other situations wherein you want to print a lot of pictures. It works with most of the file types supported by Graphic Workshop for Windows, including PCX, GIF, JPEG, Photo-CD, WMF and TIFF. GrafCat for Windows is bookware – the cost of registration is to buy and read Steven William Rimmer's novel WycCAD.

Graphic Workshop™ for DOS

This is the last word in DOS-based image programs. It converts, prints, views, dithers, transforms, flips, rotates, scales, crops, colour adjusts, catalogs, quantizes and wreaks special effects on BMP, CUT, EPS (preview), EXE, GIF, HRZ, IFF/LBM, IMG, JPEG, MacPaint, MSP, PCX, RAS, RLE, Targa, TIFF, TXT and WPG files. It drives CGA, Hercules, EGA, VGA and pretty well all super VGA cards. It will drive PostScript and LaserJet Plus laser printers, colour PostScript printers, colour inkjets and most dot matrix printers. It features batch processing, extended and expanded memory support, an intuitive user interface and easy to follow menus. It allows you to convert colour image files into superb black and white clip art for desktop publishing, among other things. The registered version includes a powerful VGA and super-VGA screen capture utility.
