Chapter 2: Library Catalogs

A large number of libraries allow access to their library catalogs via the Internet. Such catalogs can be very useful for finding uncommon books not available at a local library. Once a book is located, it can often be borrowed by your local library through Interlibrary Loan. Another popular use of library catalogs is to check citations or references. Many catalogs also support more extended reference facilities.

Please note that on-line catalogs often have a limited number of ports. Users are asked not to abuse their access.

We would like to acknowledge the considerable assistance of Ron Larsen, Art St. George, and Joe St. Sauver in compiling this section.

Contents

2.1 Boston University Library Catalog [Aug92]
2.2 MELVYL (R) System – University of California Catalog [Dec92]
2.3 CARL – Colorado Alliance of Research Libraries [Jan90]
2.4 RLIN – Research Libraries Information Network [Aug90]
