

AlterNet – Public Service Network

Address:

UUNET Technologies, Inc.
3110 Fairview Park Drive, Suite 570
Falls Church, VA 22042 USA

Email: alternet-info@uunet.uu.net

Phone: (703) 204-8000

(800) 4UUNET3

FAX: (703) 204-8001

Description

UUNET's AlterNet service offers a public network service as an attractive option to organizations seeking an Internet connection or an alternative to providing their own private networks, while gaining superior connectivity to their domestic and international sites. AlterNet supports both TCP/IP and OSI connections. AlterNet connections are available at rates ranging from 9.6 kbps to full T-1 speeds at any of our hub locations. The 56k to Anywhere program is available at every Sprint Point of Presence in the continental US (over 300 locations and 24 major cities). Customers also have the option of choosing SLIP or PPP connectivity over V.32 and V.32bis modems via dial-up or dedicated lines.

Network Access

AlterNet is on the Internet and directly connects to networks in India, South Africa, Thailand, Russia, Finland and Canada. There are no NSFNET restrictions on the traffic to these and other directly connected networks.

Who Can Use AlterNet

Email and news access is restricted to AlterNet subscribers and their correspondents.
