

LANSource™ Technical Information

LANSource Technologies Inc. 221 Dufferin St., Suite 310A Toronto, Ontario M6K 3J2 CANADA

Topic Number: Quick Guide 2

Subject: *To install the 16 bit WINport client on Windows 3.1 or Windows for Workgroups 3.11:*

Release Date: 11/02/95 Total number of pages: 1 Revision: 1. 0

1. *Extract files from WP165B.ZIP into a temporary directory.*
2. *Run SETUP.EXE.*
3. *Software will prompt you to install to the directory WINport by default.*
4. *Continue with install.*
5. *When you are asked for a CD, abort the install.*
6. *Locate a file called WINPORT.HLP on the CD and copy it to the WINPORT\WINPORT*
7. *If that file is not found, create a dummy file called WINPORT.HLP by coping WINPORTX.DLL to WINPORT.HLP in the WINPORT\WINPORT directory.*
8. *Run SETUP.EXE from the WINport directory.*
9. *Install will configure current station.*

The FAXport Administrator is not required at this point in the installation. The FAXport Administrator is a separate program used to setup and configure the FAXport Server.

NOTE: The FAXport Administrator cannot be run from the FAXport server workstation station, only from a separate workstation station where the first FAXport Client is installed!

See Quicknote Number 3: Running FAXport Administrator program, for more information on running and using that program
