

Dear Mac Users,

These Schemes are free for you to enjoy.

Feel free to distribute them around the Mac community as long as they are accompanied by my "E-Card", this "Info" Text Clipping and "Beyond the Astral Skies" & "A Dream" poems.

Each one of them is a result of my 13 year study and experience on Graphical User Interface Enviroments.

I hope that they will create a better working enviroment for you and that you will enjoy them as much as I do, especially "Be 2" wich is my favorite.

Keep up the Mac flag!

Best regards,

Orion
