

Maury's Appearance Extension Patch, version 2.1

Instructions:

Before applying the patch...

1)

Disable any virus detection software you may be using, unless it's Disinfectant. The patch won't work properly otherwise.

2)

[Make a back-up copy of the original Appearance Extension and put it someplace safe.](#) Once you patch it, it's patched, and you'll have to replace it with the original OS8 extension to get the old, boring icons back (if you ever want to, that is.)

To apply the patch...

1)

Click the "Patch" button below.

2)

You will be prompted to locate the original Appearance Extension--navigate to the Appearance Extension (inside the Extensions folder, within the System folder), select it, and click the "Patch" button (or just double-click its name.)

3)

Once the patch has been applied, Restart your computer and enjoy the new icons!

This patch application was made with ResCompare, a free resource comparison and patch generation utility. ResCompare can be FTP'ed from most Macintosh archive sites. Send e-mail inquiries regarding ResCompare to Michael_Hecht@mac.sas.com.

The icons/resources created with this patch are all © copyright 1997 by Maury McCown. Use this patch at your own expense. I am in no way responsible for any damage, problems, or misuse caused by using this patch. Please do not distribute a patched Appearance Extension to anyone, in any way, form, or fashion. You may distribute this patch ONLY in its complete form, all files included, and totally UNALTERED.
