Introduction

About

ButtonWiz is the simple way to create graphical buttons for use in programs, documents, and web pages.

Using This Program

The Use

This program is a wizard. On-screen instructions will walk you through each step of the process until your button is saved.

Revision History

Version 1.0.0 Alpha

Start of initial design and development.

Version 1.1.0 Beta

More features added.

Version 1.3.0

First public release.

Registration Information

Trialware Concept

This program is trialware. You have a limited license to use the program free for 30 days. After the 30-day evaluation period, you must register. Registration for this version is just \$15.

How to Register

For more information on how to register, select About then click on Register from the about box.
