

About this patch...

This patch cannot work properly while virus detection software is running. Please make sure that you have disabled any virus detectors before applying the patch.

This patch updates Symbionts 2.3.3, 2.3.4b1, 2.4b1, and 2.4 to Symbionts 2.4.1.

changes since 2.4

-

Startup Items panel now shows memory usage for Applications, Desk Accessories, etc. that are still running when the control panel is opened.

-

Oops, I left a debugger trap in. Pressing the Trash button would produce unimplemented trap error or drop into the debugger.

-

Fixed problem which caused name to overlay icon during startup if 'Show extension name below icon' is checked, but 'Show extension size below icon' is not.
