

THIS FONT WAS MADE FOR PRINTING AND MAY NOT LOOK ITS BEST ON SCREEN!!

IT IS A DETAILED SET OF MODERN PASSENGER TRAIN SILHOUETTES

5/22/94

This font is a virtual railroad for your printer. You will need a high resolution printer to truly appreciate this font. The screen bit map isn't the best (this will be fixed at a later date), but load up the PostScript and print out a copy of "Modern Passenger Legend" to see all the living detail in full heart stopping color (well, I get carried away, but you get the idea). Now you can add the finest passenger trains to your documents.

How to install the train font onto your system:

Just drag the files: "ModPas", and "ModPassenger.bmap", onto your system folder (or put them in font folder within the system folder) and restart any applications that are currently running.

Now for the "asking for money" bit, AKA, this is shareware:

You are free to use (play with, throw at the cat, etc.) this font for one week after receiving it. If you like it and decide to keep it, you should send a \$10 "shareware" fee to myself (see accompanying "the ModPassenger story" for why) at the address below. Please include a brief note describing where you got this font, what you like about it, and what you would like to see added to it.

If you just have to have the full collection of my train fonts (see "the freight story"), send a FORMATTED 800k or HD disk and a self addressed stamped envelope to the address below. (I hate to format disks)

If you are honestly poor, (i.e., you ain't gonna support the American way and my education) please send a post card (the weirder the better) describing where you got this font, what you like about it and what you would like to see added to it.

Give it to your friends, ModPassenger font makes a great Birthday gift (grin):

You are free to distribute this font, as long as you include all 6 of the files that it came with. I.e.:

"READ ME! (short)", "READ ME! (teach text)", "the ModPassenger story", "Modern Passenger legend", "ModPas", and "ModPassenger.bmap"

Now Showing:

Passenger font, similar to Modern Passenger train font, it is silhouettes of Pre-Amtrak passenger trains (ca. 1950).

Freight font, freight train silhouettes, e.g., box cars, hoppers, flat cars, etc..

Note that ModPassenger, Passenger and Freight are all fully compatible with each other.

Also look for my Rail Icon's. A small collection of F-7's, heralds, and a steam engine.

Coming soon:

Five new and different train fonts are currently on my drawing board.
