Contributor Notes For This Issue

Allan Anderson is the Art Director of *OneNet World* as well as the meetings organizer for OneNet Live! He has structured this and the previous two issues in HyperCard and Word. Allan was born in Amsterdam, Holland and was raised in Toronto, Canada and the Bronx, NY. He owns and runs a graphic design/desktop publishing business in Cupertino, California.

Martin Azarnoff is a published author in computer and medical magazines as well as an HIV/AIDS educator in Silicon Valley. In addition to his professional knowledge of this epidemic, he has lost over 60 friends and acquaintances to the toll of this disease.

The BBSer was born of mixed parentage (his father was the late "Chuckles the Clown" of The Mary Tyler Moore Show, who, while dressed as a giant peanut in a parade, was killed by an rampaging elephant). His mother is Phyllis Diller and he is the illegitimate grandson of Groucho Marx.
The BBSer currently resides in the "Comedy Capitol of the World," Huntington, Indiana where he is the curator of the Dan Quayle Museum.
The BBSer lives by his late father's well known credo: "A little song, a little dance, a little seltzer down your pants."

Scott Converse is the founder and Executive Director of The OneNet Member Network. He has been an executive at Apple Computer since 1987 and is currently responsible for creating online system products. He blames his passion for the Mac for: the end of his career as a mountain climber and sky-diver, the loss of ability to play brass instruments and getting fat.

Mark Crawford is a technical Purchasing Agent with over twenty years experience at Fortune 500 as well as small and start-up companies. Originally from New Jersey, he has lived in Silicon Valley for over seventeen years. To some people, he is known as "The Mayor of Silicon Valley."

Steve Heckler is a native of Florida and is currently a Senior at Stanford University in Palo Alto, California. He will graduate in June, 1994, with a Bachelor's Degree in International Relations and a Master's in history. He will be joining a Bay Area software company as an Associate Product Manager.

Hank Mollenauer is a key OneNet Administrator who, among many other duties, manages to maintain the OneNet map and topology. He grew up on the East Coast and has been all over the world. While he claims to have loved every place that he has been, he has settled in the Bay Area which he says he loves even more than any place else!

Sven Nielsen is a student at Saratoga High School in Saratoga, California. He describes himself as "a complete Macintosh fanatic," as well as a layout artist, accomplished wiring expert and a stage-lighting enthusiast. He is convinced that "This world would be a better place, if we had more real Star Trek stuff" and plans to do something about it by inventing something that is used actively on *Star Trek: The Next Generation.* His full on-line description is *Dalvenjah FoxFire,
Resident Dragon.*

Darla Pearce has a B.S. in Early Childhood Development as well as an M.B.A. degree. She is a certified Negotiator/Conciliator and has used this training to help establish the San Mateo Parental Stress Hot Line and to play a key role in "Friends to Teenage Parents." If this background did not adequately prepare her for an "advice" column, she calls upon her credentials as a mother of seven and grandma of eight.

Frank Ratliff is the Editor-In-Chief for OneNet World and is retired from teaching high school and community college English on the San Francisco peninsula. He is a lover of '65 Mustangs and Cairn terriers, of which he has one each. His affinity for the Mac was pre-ordained when it was introduced on his birthday!

Craig Rose is a marketing and sales executive with the San Jose Civic Light Opera. He has served as a tour manager with some "big names" in the music industry and also has a publishing background. In addition to his obsession with the Mac, he is a very active shortwave and scanner enthusiast and is currently the moderator for the OneNet SWL/Scanner Conference.

John P. Skeehan is a member of the Board of Directors of OneNet Los Altos. He is one of the very first assistant administrators of the system and still serves as a gateway coordinator and OneNet Mediator for the network. Professionally, he is a test engineer on workstations for a Bay Area computer hardware company.
