

```
// BUTTONS.WCM - ease the switch from Button Bar to Button Bar  
// CourtesyWare from GENie's WordPerfect RoundTable
```

```
// Macro to enable selection of Button Bar from the  
// Button Bar dialog box. It also sets the Options for  
// display of the Button Bars to Text only, Left Margin.  
// See instructions below for editing this macro to change  
// those display options. This was designed and intended for  
// use as a Button on various Button Bars. Use "Assign to  
// Macro" in editing a Button Bar of your choice.
