

Filename: dancer.avi
Source: German Photomorph Contest Entry
Approx Play Time: 7 seconds
Size of AVI file: 951,292 bytes
Resolution: 192x216

Comments:

The spider-webs in this morph can not be eliminated as the animator has created married points that overlap each other. The result, however, is quite interesting. This is one way that an animator can create the illusion of motion from a few still images. See the ***Still Life*** section of ***How Pro's Morph*** for further discussion of this technique.
