

Filename: fishlife.avi
Source: German Photomorph Contest Entry
Approx Play Time: 13 seconds
Size of AVI file: 1,137,976 bytes
Resolution: 288x240

Comments:

Good warping techniques bring this guy and his fish friend to life. Because of the low number of frames used, the animation proceeds very quickly. The same techniques that bring these images to life are discussed in the ***Still Life*** section of ***How Pro's Morph***.
