

**Filename:** guy2dog.avi  
**Source:** German Photomorph Contest Entry  
**Approx Play Time:** 10 seconds  
**Size of AVI file:** 1,119,864 bytes  
**Resolution:** 176x224

**Comments:**

With the proper software, portions of images can be cut and pasted onto other images. The intermediate image used in this animation has had this done, producing a very convincing morph. See the ***Cutting & Pasting*** section of ***How Pro's Morph*** for more details. However, this animation also suffers from the ever too common spider-web problem; also discussed in ***How Pro's Morph***.
