DETAILS,C,250

Create and printout easily any kind of envelopes

Creates a database containing the results of your tests and creates diagrams based on them

A program containing useful information concerning your PC

## Sheet1

This program is supposed to be speeding up multitasking environments. Weather it 'll work or not on your PC depends on it's

A BBS for Windows, for the ones that have dreams of becoming Sysops  
The popular communications program in it's Windows version

A simple utility, just in case someone needs it  
More power to the user. You can now kill and Windows' DLL at your will  
Seems not to be working on all VGA cards

Kind of pk-lite, but gives higher compression level

You should check the integrity of the created file, before deleting the original

A collection of utilities for Windows-contains docs

Has a good percentage of doing what it is supposed to be doing

Call your waveforms avoiding the appearance of a player's windows

Compress, without loss, wav and voc files, to still playable, smaller files

This driver can be installed from add device from "main" window

## Sheet1

Frank Lloyd's Architect from Microsoft. Computers are ideal not only for creating, but also for presenting great buildings and c

Peter Gabriel's XPLORA I challenges you to explore a world based on music

Walk in the corridors of Enterprise, see the crew, the ships specifications etc.

The greatest discoveries of man kind

This high quality production will attract not only children, but everyone to play with it

The fascination and excitement of the World Cup transferred on your PC screen

To execute this Demo, Exit Windows and at your CD-ROM drive's prompt, type MMGAME

To execute this Demo, Exit Windows and at your CD-ROM drive's prompt, type MMGAME

To execute this Demo, Exit Windows and at your CD-ROM drive's prompt, type MMGAME
