### Using the EasyPhoto Reader

1. In EasyPhoto, at the Gallery where you want to keep the new photo, choose **Add Photos to Gallery** from the File menu.
2. Click the Photo Reader button.
3. Place the photo on the Photo Reader, face up, and press the green Start button on top.
4. At the Photo Reader dialog box, watch as the photo is copied into your computer. When finished copying, click **Add to Gallery**, and give the photo a name.

EasyPhoto shows you the copied photo in a *Photo Gallery*. You use the Gallery to view and organize photos in your computer.

## Turning a roll of film into a Photo CD

A Photo CD is much like a music CD, except that it stores photos instead of sound. To get your own photos on a CD, shoot a roll of film and take it to your favorite film processor. Ask them to make a Photo CD for you.

You can also take in negatives that you already have and put them on a Photo CD.

Photo CDs hold about 100 photos. You can keep adding photos to a CD until you fill it up. Or, you can start a new one for each batch of photos.

## Buying professional photos on a CD

Besides your own photos, you can use "stock" photos shot by professional photographers. Most computer stores sell CDs with stock photos of everything from apples to Zaire.

EasyPhoto comes with more than 100 of these stock photos.

## Looking at photos on a CD

1. Put the CD in your computer's CD-ROM drive.

2. In EasyPhoto, at the Gallery where you want to store the photos, choose **Add Photos to Gallery** from the File menu.
3. Click the CD button.
4. At the Add Photos from CD dialog box, select the photos you want, and click **Add**. Or, click **Add All** to put the whole bunch into EasyPhoto.

EasyPhoto puts the photos in a *Photo Gallery*. You use the Gallery to view and organize your photos.

For photos that came with EasyPhoto, you'll find them already organized in a Gallery for you. This sample Gallery appears when you start EasyPhoto.

## How to get a Photo Reader

With a Photo Reader, you can make electronic copies of your photos and store them in your computer. You can buy a Photo Reader from Storm Software. Call 1-800-275-5734.

## Using the Getting Started "cards" for more info

In this Getting Started, whenever you see words on a gray card, you can click there for more information. You see a pop-up box, like this one. Click anywhere to close the pop-up. Watch for these cards as you step through the Getting Started.
