

Congratulations on purchasing Accordance, the finest Bible software available anywhere.

To complete this installation you will need to have your level and group unlocking codes available.

Easy Install - simply select your purchase level in the next window, and click Install.

Custom Install

In the next window you will need to select a level from one of the four packages above the line. You can also select below the line any additional groups which you have purchased. Some of the groups may be included in the level you select, in which case you do not need to select those groups. Click the I (information) button to see details about each package. You must select one of the levels to install Accordance, unless you are simply adding another group of modules. The Manuals and Documents package is included in each level except the Minimum Install.

For more information please see the Installation Instructions on the CD-ROM.
