

## Barney Bash Registration Info

### Info

-----  
If you decide to register Barney Bash you will receive version 2.0 on disk in the mail. Version 2.0 is a huge upgrade to the shareware version in that you will get a Target Range added to the Main Menu, and you will get the option to take on Barney one on one. And for an added bonus for registering (provided you do kill Barney) you will get to knock Barney off a cliff and watch him splat. There are many more sounds and graphics added as well.

I do hope you strongly consider registering Barney Bash. I worked long and hard on it and you will be very pleased with the registered version. ( You may also distribute the shareware version 1.0 freely to friends and on BBS's and on any other On-Line services other than CompuServe provided you do include all the included files with it. (ie: readme and registration file.)

### Disk Info

-----  
The shareware version needs the runtime file Vbrun300.dll in the WINDOWS\SYSTEM file of your computer. The registered version comes with this file and installs it and other files needed to your Windows\System directory. All you have to do is run setup from the disk.

### To Register

-----  
You may register by sending a check or money order to;

Chris Philpot  
4002 Haven Pines  
Kingwood, TX 77339

The price to register is \$10.00.

Mexico\Canada Orders add \$5.00 for Shipping.  
Foreign Orders add \$10.00 for Shipping

If you have problems or questions send them to the address above or to

73172,100 on compuserve or  
to  
73172,100@compuserve.com for other on-line services or on the internet..

Thanks,  
Chris Philpot
