Email: Ash@ionet.net

This file is designed to manage and run any DOS or Windows files from Windows 95.
It was designed with game playing in mind.

There are basically three parts to this help file:

The Panels.

The Buttons.

The Pop-Up-Menu.

The Panels

The panels contain the information stored in The Program Master, as well as the help pages.

The panels are as follows:

[Help Panel.](#)

[Win Files Panel.](#)

[Dos Files Panel.](#)

[Back](#) to the Top.

Help Panel

This page gives you information on the data load status, and the Close on Run status.

It also contains the following buttons.

[Help Button.](#)

[About Button.](#)

[Drop Box.](#)

[Exit.](#)

[Back](#) to the Panels section.

[Back](#) to Buttons section.

Help Button

This is the help feature.

[Back](#) to Help Section.

About Button

This section will give program specific information as well as ShareWare registration information.

[Back](#) to the Help Section.

Exit Button

Will exit the program. The Program Master will prompt to save new data if any has been added before quitting.

[Back](#) to Help Section.

Drop Box

The Drop box will lower when the drop box button is clicked, or the drop box item in the pop-up menu is selected.

Information items include the following:

File Description: Title of software currently ready for execution.

RUN file name: Executable file name for the above file description.

SETUP file name: Executable setup file name for the above file description.

Buttons:

Run.
