Manual Install

In the unfortunate event that the Install program can not be completed successfully.

Manual install is relatively simple and takes three steps:

- 1) Create a directory called C:\SUPTOOLS.
- 2) Copy the files SUPTOOLS.XLA and SUPHELP.XLS into that directory.
- 3) The final step is to make the file C:\SUPTOOLS\SUPTOOLS.XLA an Excel Add-Ins:
 - a) Under Tools menu in Excel, click on Add-Ins.
 - b) When the Add-Ins dialog box appears, click on Browse.
 - c) Type in C:\SUPTOOLS\SUPTOOLS.XLA as the file to be added in.

Manual Un-Install

In the unfortunate event that the Un-Install program can not be completed successfully.

Manual un-install is relatively simple and takes two steps:

- 1) Remove the file C:\SUPTOOLS\SUPTOOLS.XLA as an Excel Add-Ins:
 - a) Under Tools menu in Excel, click on Add-Ins.
 - b) When the Add-Ins dialog box appears, uncheck the item Suptools
- 2) Remove the directory C:\SUPTOOLS.

If all else fails, please let us know about the problem.
