To order StampCAT

Registration of a shareware product such as StampCAT is a simple and painless exercise. You pay a one-time fee to the product authors, and for that fee you receive the right to continue using the product without further time limits.

The registration fee of StampCAT is $39 (US dollars) plus $6 to cover shipping and handling, payable via one of the methods explained below.

When you register you receive:

- Latest version of StampCAT on 3,5" diskettes.
- A printed user's guide.
- Free technical support available by E-mail or regular mail.

In addition, *all* future upgrades are free. Please note that we cannot actually send all upgrades directly to you, but you are welcome to download new versions from the Internet or get them from a disk vendor, CD-ROM, BBS, etc. As long as you install the new version in the same directory as the version you have, StampCAT will continue to run as a registered version.

Credit Card Payment

We have made arrangements with RegNet (the Registration Network) to enable you to order using your Visa, MasterCard, AmericanExpress or Discover card. RegNet will notify FNProgramvare (creators of StampCAT) the day of you order and we will ship StampCAT within 48 hours. If you provide an E-mail address, we will notify you immediately when the order is received.

Please note that RegNet is not connected with the product authors in any way, and will be unable to provide any service to you other than accepting sales orders. You cannot contact the authors via RegNet. Please do not contact RegNet for any other reason than to submit an order!
