REMOVAL OF PROGRAM

After you have registered your copy of Guitar Chord Buster, you will receive the complete package of disks and a manual.   Virtual World Software continues to improve and develop the Chord Buster series and will keep you informed of upgrades and add-ons as they become available.

This evaluation copy has the following functions disabled:
- Saving to disk of chords and sequences, and more then 3 custom strums, for later retrieval.
- Display of left-handed guitar and chord pictures for left-handed guitarists.

Virtual World Software, 28 Old Brompton Road,   South Kensington, London, SW7 3DL, UK
E-Mail: 100552.1114@compuserve.com   Fax: 0171 581 4851

COMPUSERVE USERS
You can order Guitar Chord Buster through your Compuserve service.   If you have used the Compuserve SWREG service you will probably be familiar with the process of ordering a registered software product.   If you are unsure of this process, follow these instructions.

*	Log on to Compuserve using Compuserves WinCim software.
*	Select the GO service and type SWREG.
*	Read the instructions about the service.
*	Select the menu choice Register Shareware.
*	Follow the instructions and locate the Guitar Chord Buster record.
(The fastest way to do this is to use the program Registration IDs - 13509 for 16 bit Windows   and 13510 for Windows 95)
*	If you wish to register for the package, click Register.
*	Complete the registration form.

Once you have done this, we will receive your registration from Compuserve within one business day and post the registered product to your address.   The price of the package will be added to your Compuserve account.

PRODUCT SUPPORT

PRODUCT SUPPORT
You may contact us by E-Mail or Fax for support for a period of three months from the date of the order.
We would also welcome your comments and suggestions for future improvements.

LICENSE TERMS

Guitar Chord Buster Copyright © 1995-1996 by Virtual World Software
All rights reserved.

License Agreement
Your use of this software indicates your acceptance of this license agreement and warranty.
SHAREWARE VERSION
After installation, we welcome you to use the evaluation copy for an indefinite period.   It presents all the features of the registered version apart from those explained in the contents page of this help file.   The shareware evaluation version of Guitar Chord Buster may be distributed freely and can also be sold and used in commercial transactions. No part of the software may be modified.
REGISTERED VERSION
The registered version of Guitar Chord Buster enables the saving and distribution of guiter graphics and music through Chord Buster files (*.GCB) across the Internet or other media.   Licensed users of Guitar Chord Buster are free to distribute *.GCB files and use them in commercial transactions.   Virtual World Software will not be liable for infringements of copyright or contractual obligations caused to third parties by the improper use of *.GCB files. One registered copy of Guitar Chord Buster may be used by a single person who uses the software on one or more computers, or a network group of people whose simultaneous use of the program does not exceed the number of single licenses.

REMOVAL OF PROGRAM
Windows 3.1x
- Use File Manager to delete the directory where you installed Guitar Chord Buster.
- Select the Guitar Chord Buster icon shown in the Program Manager.   Click the pull-down menu **File** and click **Delete**.
- Select the empty Guitar Chord Buster window, click the pull-down menu **File** and click **Delete**.

Windows 95
- If you installed the program correctly through the Control Panel, the program components can be removed automatically.   If you did not do this, re-install the program by clicking the **Task** button - click the **Settings** option - click **Control Panel** and load the item **Add/Remove Programs**.   Follow the instructions and browse to find the Guitar Chord Buster setup.exe file.   Re-install Guitar Chord Buster into the same directory as your original installation.
- Remove Guitar Chord Buster by clicking the **Task** button - click the **Settings** option - click **Control Panel** and load the item **Add/Remove Programs**.   You should see the program Guitar Chord Buster listed.   Select it and click the button Add/Remove..
