1.5 A guide to HYDRA

To join the chart please contact:

In Norway: Trouble (SysOp: Into Exile!)
 (^Please contact me (eD.))

In Denmark: Mr.Hyde

other countries are welcome, but must establish a HQ first! it would be impossible for the DK staff to manage other countries too! (and to damn expensive!)

A little note on how things work in Hydra!

:: THE CHARTS ::

Each country in HYDRA will get a board chart with the 3 main catagories

xTERNAL uPLOADS & aCTIVE cALLS
oNLINE bYTES
lOCAL uPLOAD & lEGAL vOTES

up to 20 boards will be allow in the charts! but ofcoz the HQ decides how many they will count!

Each country in HYDRA will get a trader chart, with as many traders we can fit into the mag!

Apart from this we might make a complete trader chart, with all the traders counted in their country charts, in one big chart!

:: THE VOTES ::

After finished the counting tools, we're now planning on improving the vote section! but we have not decided anything yet!

:: A little note on LOCAL UPLOADING! ::

A few SysOps have been arguing that they have not uploaded anything locally, yet the tools said they had... I'm sorry, but the tools makes a complete list of files not found in the UDLOGs, and I've not spotted a single error yet...

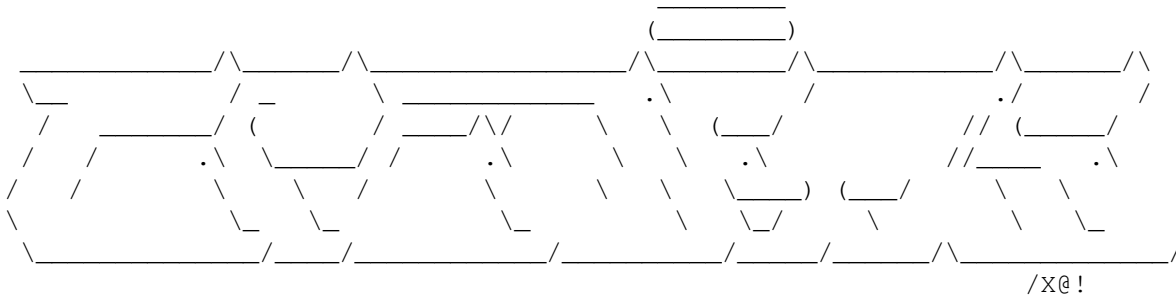

:: PLANS FOR THE FUTURE ::

- Making hydra in "cODE" format again, with a new mag proggy and new deizgn!
 - Taking the mag's voting catagories upto revision!
-

- Expanding into more countries!
- & What ever you think should be made different 8)!

1.15 Chart Section... TRADER RELEASES

:: Facts/Info ::

This chart is based on FACTS! not votes, what the chart tells, is what trader is the fastest in Denmark with new releases.

The trader part is dividen into 2 parts:

- part one is when a trader is fastest BUT doesn't upload the complete release. He will then get 2 points
- part two is when he is fast, and uploads the complete release, he will then recieve 3 points.
